Below you’ll find practical details to help make your festival experience as smooth and soulful as possible.

Morning Gathering & Support

Every morning at 10:00 AM, we gather as a tribe to dance, drop into silence, and

preview the day's workshops.

Tribes Sharing Groups: You will be assigned a small circle to help you integrate your experiences and build deeper connections.

Emotional Support: Feeling "activated" or overwhelmed is natural during transformational work. Our 'Love Angels' and assistants are present at every workshop to support you. You are not alone; we've got your back!

Sexual & Emotional Health

You are the primary guardian of your own well-being.

The Power of "No": You can always say no or step out of any dynamic at any time.

Boundaries: If someone crosses a boundary, communicate directly if possible, or speak with a team member immediately. We are committed to a safe and respectful culture.

Photography & Filming

Participants may not photograph others without explicit permission.

Our media team will discreetly capture select moments for promotional use. If you prefer not to appear in any media, please let us know at registration. We will take a reference photo of you with your arms crossed so our editors can identify and remove you from the final content.
